Subject: Link to Wallula carbon sequestration pilot permit

Good afternoon Yale Taprock team,

I apologize that it's taken more than a week to get this information to you after our meeting. We promised to share the pilot permit for your reference. Permits and reports are available in our PARIS database: [Wallula – ST0008110](#)

I haven't been able to get into the office to check for additional documents in our central files but if there are useful bits, I'll pass those along as well.
